

CALL FOR PAPERS: "1rst International Workshop on Web Intelligence (WEBI'12)"

June 28 – 1 July, 2012

**in conjunction with the 14th International Conference on Enterprise Information Systems
(<http://www.iceis.org/>), Wroclaw Poland**

Web Intelligence (WI) has been recognized as a new direction for scientific research and development to explore the fundamental roles as well as practical impacts of Artificial Intelligence (AI) [E.g., knowledge representation, planning, knowledge discovery and data mining, intelligent agents, and social network intelligence) and advanced Information Technology (IT) [E.g., wireless networks, ubiquitous devices, social networks, semantic Web, wisdom Web, and data/knowledge grids) on the next generation of Web-empowered products, systems, services, and activities. It is one of the most important as well as promising IT research fields in the era of Web, agent intelligence and virtual communities.

The WEBI 2012 is a Workshop joint to ICEIS 2012. This first workshop edition provides a forum for researchers and practitioners to present results, applications, and experiences in Web Intelligence.

Papers submitted to **Workshops** can be accepted in one of the following **three categories**:
⇒ **Full Papers**: Papers allocated 30 minutes for oral presentation (including discussion). These papers are assigned a 10-page limit in the conference proceedings.
⇒ **Short Papers**: Papers allocated 20 minutes for oral presentation (including discussion). These papers are assigned an 8-page limit in the conference proceedings.
⇒ **Posters**: Papers presented as poster are assigned a 6-page limit in the conference proceedings.

If absolutely needed, it will be allowed to increase the total number of pages by a maximum of 4 extra pages. However, for each excess page the author will have to pay an additional fee. Instructions for preparing manuscripts (in Word and Latex format) are available at the ICEIS web site ([http:// www.iceis.org/](http://www.iceis.org/)).

Papers should be submitted through the online submission system.

All papers will be reviewed on the basis of relevance, clarity and technical quality. At least one author should attend the workshop to present the paper.

Papers will be published in a special issue of the following international journals: IJCIS (<http://www.worldscinet.com/ijcis/>) and IJCSI (<http://ijcsi.org/>).

Topics of interests include, but are not limited to:

- Intelligent Human-Web Interaction and Virtual community
- Web Information Filtering & Retrieval, linked data
- Electronic Commerce,

- Conversational Systems,
- Browsing and Exploration,
- Adaptive Web,
- User Profiling/Clustering,
- Negotiation Systems,
- Security, Privacy and Trust,
- Web Mining and Farming,
- Social Networks Mining,
- Intelligent e-Technology,
- Semantic Web,
- Web Agents,
- Knowledge Grids & Grid Intelligence,
- Ubiquity, pervasive systems,
- Grid Computing, Cloud Computing, Web Services, Search in Networks,
- Industrial feedback and prototypes.

Important dates:

- Submission Deadline: **March 31, 2012**
- Author Notification: **April 19, 2012**
- Camera Ready Submission Deadline: **April 29, 2012**

Chairs:

Professor Khaled Guedira , SOIE LI3 ISG Tunis, Tunisia

Professor Laurent Vercouter, LITIS lab, INSA de Rouen, France

Assistant Professor Valérie Monfort, SOIE LI3 ISG Tunis, Tunisia & Paris1 Panthéon Sorbonne University , France

Program Committee:

Pierre Maret, University of Saint Etienne, France

Laurent Vercouter, LITIS lab, INSA de Rouen, France

Lamjed Ben Saied SOIE ISG Tunis, Tunisia

Christoph Stahl, Saarland University, Dep. of Computer Science, Saarbrücken, Germany

Khaled Guedira , SOIE LI3 ISG Tunis, Tunisia

Jean-Pierre Lorre, EBM Web Sourcing, Toulouse, France

Valérie Monfort, SOIE LI3 ISG Tunis, Tunisia & Paris1 Panthéon Sorbonne University , France

Pravin Amrut Pawar, Faculty of Electrical Engineering Mathematics and Computer Science University of Twente, The Netherlands

Faiez Gargouri , ISIM Sfax, Tunisia

Juri Luca De Coi, University of Saint Etienne, France

Jan-Willem van 't Klooster EWI-BSS - Remote Monitoring and Treatment University of Twente, The Netherlands

Wasif Gilani Business Intelligence Practice, SAP Research Belfast

Eddie Soulier, Pôle HETIC, University of Technologie of Troyes, France
